Why Sponsor the Biomedical HIV Prevention Summit?

In only its third year, the Biomedical HIV Prevention Summit has grown in size and importance to the HIV community. In 2017, nearly 1,000 leaders, advocates, and educators - almost tripling the size of the 2016 Summit - convened to share ideas and learn about new approaches to maximize the use of biomedical HIV prevention methods.

Sponsoring the Summit builds visibility for your brand or organization, connects you with a diverse group of decision makers, and gives you a forum to share your organization's message and expertise to the 1,000+ registrants that are expected to be in attendance. Additionally, your sponsorship allows the Summit to create innovative programming and funds scholarships to people affected by HIV/AIDS. Make sure that you are present to have important conversations with leaders, decision makers, and front-line service providers.

All Sponsors Receive the Following:

- **Organization name and logo listing on the Summit website, mobile app, and all official publications**
- **Organization name and logo listed on Summit signage**
- **Sponsor ribbons for organizational staff**
